TITLE 3—THE PRESIDENT

PROCLAMATION 2771

ARMY DAY, 1948

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA
A PROCLAMATION

WHEREAS the Army of the United States is a mighty shield of our Nation in war and the faithful servant of our people in time of peace; and

WHEREAS the tasks entrusted to the Army are vital to the establishment of a durable peace; and

WHEREAS Senate Concurrent Resolution 5, 75th Congress, 1st Session, which was agreed to by the House of Representatives on March 16, 1937 (50 Stat. 1108) provides:

That April 6 of each year be recognized by the Senate and House of Representatives of the United States of America as Army Day, and that the President of the United States be requested, as Commander in Chief, to order military units throughout the United States to assist civic bodies in appropriate celebration to such extent as he may deem advisable; to issue a proclamation each year declaring April 6 as Army Day, and in such proclamations to invite the Governors of the various States to issue Army Day proclamations: *Provided*, That in the event April 6 falls on Sunday, the following Monday shall be recognized as Army Day:

NOW THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby proclaim Tuesday, April 6, 1948, as Army Day, in order that we may accord appropriate recognition to our Army, which throughout our history has preserved our way of life by conspicuous skill and gallantry. I also invite the Governors of the several States to issue proclamations for the celebration of this day in such manner as to render suitable honor to the Army of the United States in all its component parts—the Organized Reserves, the National Guard, and the Regular Army—and to the millions of Army veterans who have returned to civilian pursuits.

In these critical times, I urge my fellow citizens to remember that an alert and ready America is a mighty power for peace and a beacon of hope to the peoples of the world who would be free. If our soldiers who are on duty in foreign lands are to represent American democracy

proudly and successfully, they must know that they have the wholehearted support of our people. I therefore commend to all Americans appropriate and sympathetic observance of Army Day as a token of special honor to the soldiers and veterans of our Army, at home and in foreign lands.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 28th day of February in the year of our Lord nineteen hundred and [SEAL] forty-eight, and of the Independence of the United States of America the one hundred and seventy-second.

HARRY S. TRUMAN

By the President:

G. C. MARSHALL,
Secretary of State.

PART 301—DOMESTIC QUARANTINE NOTICES

REVOCATION OF QUARANTINE ON UNITED STATES MAINLAND TO PROTECT HAWAII AGAINST PLANT PESTS

Notice of proposed rule making was published on February 4, 1948, in the FEDERAL REGISTER (13 F. R. 503) pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 238) regarding the revocation of Notice of Quarantine No. 51 (7 CFR Cum. Supp. § 301.51) upon the United States in order to prevent the introduction into the Territory of Hawaii of injurious insects, especially the sugarcane borer, the alfalfa weevil, the cottonball weevil, the papaya fruitfly, and certain insect enemies of the avocado, and also regarding the revocation of the rules and regulations supplemental thereto (7 CFR Cum. Supp. §§ 301.51-1 to 301.51-7, inclusive) After consideration of all relevant matter presented, including the proposals set forth in the aforesaid notice, the Secretary of Agriculture hereby revokes, effective March 1, 1948, the said Notice of Quarantine No. 51 (7 CFR Cum. Supp. § 301.51) and rules and regulations supplemental thereto (7 CFR Cum. Supp. §§ 301.51-1 to 301.51-7, inclusive)

Inasmuch as this revocation relieves restrictions heretofore imposed, it is within the exception in section 4 (c) of the Administrative Procedure Act and may properly be made effective less than 30 days after its publication in the FEDERAL REGISTER.

(Sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 26th day of February 1948.

Chapter VIII—Production and Marketing Administration (Sugar Branch)

[Revision 1]

PART 821—SUGAR QUOTAS

DETERMINATION OF AMOUNTS OF SUGAR NEEDED TO MEET REQUIREMENTS OF CONSUMERS IN CONTINENTAL UNITED STATES FOR 1948

Basis and purpose. The revised determination set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary shall revise the determination of sugar consumption requirements at such times during the calendar year as may be necessary to meet such requirements. It now appears that the original estimate of consumption requirements for the calendar year 1948 was too high. The purpose of this revision is to make such estimate conform to the requirements presently indicated on the basis of the factors specified in section 201 of the act.

Since the determination of sugar consumption requirements is an important price factor, compliance with the notice

and procedure requirements of the Administrative Procedure Act (60 Stat. 237) is likely to result in excessive speculation and disorderly marketing of sugar. Moreover, in order effectively to carry out the purposes of the Sugar Act, it is necessary that the revision in the determination be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest, and the revision of the determination made herein shall be effective on the date of its publication in the FEDERAL REGISTER.

Section 821.1 of the determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for 1948 (13 F. R., page 131) is hereby revised to read as follows:

§ 821.1 *Determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948 is hereby determined to be 7,500,000 short tons, raw value.

Statement of bases and considerations. On January 2, 1948, it was announced that the amount of sugar needed to meet the requirements of consumers in the continental United States in the calendar year 1948 was 7,800,000 short tons, raw value. Since that time, the actual distribution of sugar during January and the first three weeks of February has been very low compared with the distribution which could be expected during January and February by applying a pre-war percentage of annual distribution in the same months to the estimated annual consumption of 7,800,000 short tons. Examining each of the bases and considerations set forth in section 201 of the act and the analyses made at the time of the original estimate of sugar consumption requirements on January 2, there appears to be no basis for any change at this time in the basis on which the determination was made, namely, the quantity of direct consumption sugar distributed during the 12 months ended October 31, 1947. However, while there may have been changes since December 31, 1947, in consumption because of changes in demand conditions, including the level and trend of purchasing power, the extent of such changes is not now readily determinable, particularly with respect to the effect of such changes on the total demand for sugar for the entire calendar year. Therefore, no change is warranted at this time in the net additional allowances made on January 2 for changes in population and demand conditions.

While the Department has no current data which would warrant changes in its estimates of visible and invisible stocks of sugar on December 31 in the hands of primary distributors, manufacturers, wholesalers and retailers, it is now apparent from recent distribution that exceptionally large stocks were held

by household consumers on December 31, 1947. In view of the fact that total distribution during the months of January and February will be approximately 300,000 tons less than the quantity which would have normally been distributed during these months under an estimate of consumption requirements in the amount of 7,800,000 short tons, raw value, it is necessary to allow a net total of 250,000 short tons, raw value, for inventory surplus instead of the net allowance of 50,000 short tons, raw value, for inventory deficiency set forth in the determination of sugar consumption requirements on January 2, 1948.

Since the basis price for refined cane sugar at wholesale has dropped to 7.75 cents per pound, the application of the price relationship factor set forth in the act would, considered alone, warrant a price in excess of the current price. However, it is concluded, after careful consideration of all factors involved, including the change in the allowance made above for a surplus in inventories of sugar, that a further adjustment in the consumption requirements is not necessary at this time to maintain the objective of "prices which will not be excessive to consumers and which will fairly and equitably maintain and protect the welfare of the domestic sugar industry."

Except to the extent modified herein, the Statement of Bases and Considerations contained in the determination of January 2, 1948, is unchanged.

(Secs. 201 and 403 of Pub. Law 388, 80th Cong.)

Done at Washington, D. C., this 26th day of February 1948. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary.

Subchapter F—Animal Breeds

[B. A. I. Order 365, Amdt. 18]

PART 151—RECOGNITION OF BREEDS AND PUREBRED ANIMALS

DOGS; BOOK OF RECORD RECOGNITION

Pursuant to the authority vested in the Secretary of Agriculture by paragraph 1606, section 201, Title II, of the act of June 17, 1930 (46 Stat. 673; 19 U. S. C. 1201, par. 1606) paragraph (a) of § 151.6, Chapter I, Title 9, Code of Federal Regulations, as amended (9 CFR, Supps., 12 F. R. 3027, 4018) paragraph 1, section 2, regulation 2, B. A. I. Order 365) is amended by adding to the subdivision of said paragraph relating to dogs the following breeds and book of record:

Dogs

Name of breed	Book of record	By whom published
Various recognized breeds.....	Svenska Kennelklubben Stam-bok. ¹	Svenska Kennelklubben, Ivan Swedrup, Secretary, Långgatan 25, Stockholm, Sweden.

¹ Provided that no dog or dogs registered in this book shall be certified as purebred unless a certificate giving three generations of complete and recorded purebred ancestry, issued by the organization named, is submitted for each dog.

This amendment shall become effective on publication in the FEDERAL REGISTER.

The importation into the United States of purebred animals for breeding purposes benefits the public by improving the breeds of animals in the United States. Congress has recognized this fact in paragraph 1606, section 201 of the act of June 17, 1930 (19 U. S. C. 1201, par. 1606) under which purebred animals imported by United States citizens may be imported duty-free if they are certified by the Department of Agriculture as registered in a book of record recognized by the Secretary of Agriculture for the particular breeds. Pending issuance of such certificate, the importer is required by regulations of the United States Customs Bureau to post a bond valid for a limited period and subject to forfeiture unless the certificate is obtained and submitted to the Customs Bureau within such time. Certificates have been requested from the Department of Agriculture for purebred dogs registered in the book of record specified above which has not heretofore been recognized by the Secretary of Agriculture in his regulations under said act. The Secretary of Agriculture has determined

that the regulations should be amended to recognize such book of record and thereby to relieve restrictions upon the importation of such dogs. The foregoing amendment to accomplish this purpose should be made effective as soon as possible in order to be of maximum benefit to the public and to prevent unnecessary hardship to importers through forfeiture of their bonds. Good cause is therefore found, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238), that notice and public procedure on this amendment are impracticable, unnecessary and contrary to the public interest, and inasmuch as this amendment relieves restrictions otherwise imposed, it is within the exceptions in section 4 (c) of the Administrative Procedure Act and may properly be made effective less than 30 days after its publication in the FEDERAL REGISTER.

Issued this 26th day of February 1948.

AUTHORITY: §§ 4.25 to 4.35, inclusive, issued under sec. 8, 18 Stat. 127, as amended, sec. 1, 34 Stat. 200, as amended, sec. 6, 43 Stat. 106; 14 U. S. C. 35, 92, 206.

SUBPART—ENLISTED PERSONNEL

§ 4.25 *Enlistments for general service.* All enlistments in the Coast Guard shall be for general service, without reference to any particular unit, and enlisted persons may be transferred from one unit to another.

§ 4.26 *Types of enlistments.* Enlistments in the Coast Guard shall be either special temporary enlistments or regular enlistments.

§ 4.27 *Original enlistments.* The enlistment of any person who has not previously served in a special temporary enlistment or a regular enlistment in the Coast Guard shall be considered an original enlistment. All original enlistments shall be special temporary enlistments except in the case of the original enlistment of a person who has served in the Coast Guard Reserve and is eligible for enlistment in or conversion to a regular enlistment in accordance with 33 CFR 4.34.

§ 4.28 *Terms and qualifications for enlistment.* Instructions will be issued to recruiting officers by the Commandant from time to time setting forth the terms of enlistments for which men are to be accepted, the ratings in which enlistments may be made, the maximum and minimum ages for enlistments, and other qualifications for enlistments.

§ 4.29 *Enlisting officer and oath of enlistment.* A commanding officer, an executive officer (under the direction of the commanding officer), and a recruiting officer shall be enlisting officers. When an enlistment is made by an enlisted person, the oath of allegiance shall be administered by a commissioned, chief warrant, or warrant officer, a notary public, or any other officer who may be authorized by law to administer such oaths.

§ 4.30 *Persons who may not be enlisted.* None of the following persons shall be enlisted in the Coast Guard:

- (a) An insane or intoxicated person.
- (b) A person of known bad character.
- (c) A person known to have committed a crime.
- (d) A person who is a deserter from the military service of the United States.

(e) A person who has been in the military service of the United States whose service has not been verified, except a person who reenlists on the day following discharge at the unit from which discharged.

(f) An unmarried person under 21 years of age who has not the consent of his father, only surviving parent, or legal guardian, proof of which must be established. If he has no parent or legal guardian residing in the United States or in the territory or possession of the United States where his enlistment is being made, his enlistment may be effected provided he executes a statement to that effect on the reverse side of the enlistment contract.

(g) A married person under 21 years of age who does not submit a signed statement from his lawful wife that she understands and is agreeable to the contract upon which her husband is about to enter.

(h) A person who is an alien.

§ 4.31 *Fraudulent enlistment.* When a person willfully conceals any fact, circumstance or condition, other than minority, that existed prior to enlistment and which would have made him ineligible for enlistment, such enlistment, if voided by the Commandant, shall be fraudulent.

§ 4.32 *Definition of reenlistment.* The enlistment of any person who has previously served in a special temporary enlistment or regular enlistment in the Coast Guard shall be considered a reenlistment.

§ 4.33 *Types and term of reenlistment.* A reenlistment shall be either a special temporary enlistment or a regular enlistment. A reenlistment, whether or not under continuous service, shall be for a period of two, three, four, or six years, as the Commandant may prescribe from time to time.

§ 4.34 *Qualifications for regular enlistment.* To be eligible for enlistment in or conversion to a regular enlistment, a man must:

(a) Have completed six years of continuous active service in a special temporary enlistment and/or the Coast Guard Reserve.

(b) Have received a discharge entitling him to reenlistment or, in the case of conversion, on the day prior to conversion have fulfilled the standards established for reenlistment.

(c) Pass the standard physical examination without waiver, except that the Commandant may waive an injury or disease incurred in line of duty.

(d) Reenlist within 90 days from date of discharge.

(e) Be a citizen of the United States.

§ 4.35 *Continuous service.* A person discharged from the Coast Guard under honorable conditions entitling him to reenlistment who reenlists within 90 days from the date of last discharge is considered as being in continuous service

status and is entitled to all benefits accruing from such a status.

Dated: February 25, 1948.

FEDERAL POWER COMMISSION

[Docket Nos. G-200, G-207, G-880]

TEXAS EASTERN TRANSMISSION CORP. ET AL.

NOTICE OF TELEGRAPHIC ORDERS

FEBRUARY 25, 1948.

In the matters of Texas Eastern Transmission Corporation, et al., Docket No. G-880; and Panhandle Eastern Pipe Line Company, et al., Docket Nos. G-200 and G-207.

Notice is hereby given that the Federal Power Commission issued the following telegraphic orders on the dates indicated:

JANUARY 26, 1948.

Because of extreme emergency conditions on Kentucky Natural system due in part to delay in completion of Tennessee Gas Transmission Company's construction, Panhandle Eastern is authorized, as permitted by paragraph 3 of Emergency Service Rules and Regulations, to deviate from specified rules of curtailment to extent necessary to maintain direct deliveries to Kentucky Natural at 9500 to 10,500 Mcf per day until Tennessee's facilities are completed but not beyond February 1. Subparagraphs (b) and (c) of paragraph 6 of emergency rules shall be inapplicable to such deliveries. *Provided, however*, if during this period it is necessary for Panhandle to order into effect steps 3 or 4 of its emergency rules, Kentucky Natural and its utility customers shall not deliver any gas for firm or interruptible industrial use in excess of the percent of normal requirements.

JANUARY 27, 1948.

Because of extreme emergency conditions on Kentucky Natural system which is causing curtailment of service to residential customers and which is due in part to delay in completion of Tennessee Gas Transmission Company's construction, Panhandle Eastern shall deliver to Kentucky Natural until Tennessee's facilities are completed but not beyond February 1, 1948, two and one-half million cubic feet per day of firm gas over and above amounts specified in Emergency Service Rules and Regulations prescribed by Commission's order of November 25, 1947, in Dockets Nos. G-200 and G-207. Subparagraphs (b) and (c) of emergency service rules shall be inapplicable to such deliveries. *Provided, however* That with respect to Kentucky Natural and its utility customers, if during this period it is necessary for Panhandle to order into effect steps 3 or 4 of its emergency rules, Kentucky Natural and its utility customers shall not deliver any gas for firm or interruptible industrial use in excess of ten percent of normal requirements.

By direction of the Commission.

JANUARY 28, 1948.

Ohio Fuel Gas Company has applied to the Commission for an emergency allocation of thirty million cubic feet of natural gas per day for five days beginning January 28, 1948, to avert breakdown of service to residential consumers in Ohio and other states served by the Columbia Gas and Electric System. Ohio Fuel assures the Commission that entire Columbia System has curtailed service to industrial consumers to the maximum extent possible, has reduced service to commercial consumers, and has appealed to residential consumers to reduce to the minimum their consumption of gas for cooking, water heating and home heating. Ohio Fuel assures the Commission that Columbia System is utilizing all its sources of gas supply to the maximum, but that such supplies are dwindling due to depletion of propane supply. These allegations of Ohio Fuel are confirmed by other responsible officials of Co-

Columbia System operating subsidiaries and of major gas companies purchasing gas from Columbia System. Upon consideration of these representations and on the basis of the record in Dockets G-200 and G-207, the Commission finds it necessary in the public interest for the protection of service to residential consumers of Ohio Fuel Gas Company to modify its order of November 25, 1947 establishing Emergency Service Rules and Regulations for natural gas service by Panhandle Eastern to enable Panhandle Eastern for a period extending only through February 1, 1948 to deliver to Ohio Fuel approximately fifteen million cubic feet of natural gas per day over and above the amounts provided for in said rules. Therefore the Commission amends and modifies its order of November 25, 1947, to provide that Panhandle Eastern shall increase its natural gas deliveries to Ohio Fuel Gas Company by up to fifteen million cubic feet per day over and above the amounts specified in such emergency service rules as promptly as possible and shall continue such increased deliveries through February 1, 1948. In order to make such deliveries, Panhandle shall keep step two of its emergency service rules in effect and to the extent necessary order its customers to reduce firm industrial deliveries to not more than forty percent of normal requirements. Subparagraphs (b) and (c) of paragraph (6) of said Emergency Service Rules shall be inapplicable to such deliveries to Ohio Fuel. All subject to the condition that during the period of such increased deliveries Ohio Fuel and other operating companies in the Columbia System and their utility customers do not deliver any gas for firm or interruptible industrial use in excess of ten percent of normal requirements.

By direction of the Commission.

JANUARY 29, 1948.

In view of your advice that Commission's telegraphic order of January 23, 1948, concerning increased deliveries to Ohio Fuel Gas Company is indefinite and uncertain, said order is hereby modified, effective immediately, to read as follows: Ohio Fuel Gas Company has applied to the Commission for an emergency allocation of thirty million cubic feet of natural gas per day for five days beginning January 23, 1948 to avert breakdown of service to residential consumers in Ohio and other states served by the Columbia Gas and Electric System. Ohio Fuel assures the Commission that entire Columbia System has curtailed service to industrial consumers to the maximum extent possible, has reduced service to commercial consumers, and has appealed to residential consumers to reduce to the minimum their consumption of gas for cooking, water heating and home heating. Ohio Fuel assures the Commission that Columbia System is utilizing all its sources of gas supply to the maximum, but that such supplies are dwindling due to depletion of propane supply. These allegations of Ohio Fuel are confirmed by other responsible officials of Columbia System operating subsidiaries and of major gas companies purchasing gas from Columbia System. Upon consideration of these representations and on the basis of the record in Dockets G-200 and G-207, the Commission finds it necessary in the public interest for the protection of service to residential consumers of Ohio Fuel Gas Company to modify and change the emergency service rules and regulations promulgated by its order of November 25 1947, in Dockets Nos. G-200 and G-207, for the period January 29 to February 2, 1948, inclusive, and hereby orders that Panhandle Eastern Pipe Line Company shall deliver to Ohio Fuel for the period January 29, 1948, through February 2, 1948, fifteen million cubic feet per day in addition to the quantities otherwise provided by such emergency rules and regulations, but Panhandle shall not make such increased

deliveries to Ohio Fuel at any time step four of such emergency rules and regulations may be in effect. Further, by reason of the critical shortage of oil and propane for the manufacture of gas by Michigan Consolidated Gas Company for its Detroit operations, the Commission orders that if the delivery of the additional fifteen million cubic feet of gas to Ohio Fuel as herein provided requires Panhandle to put into effect step three of the curtailments provided in the emergency rules and regulations, then so long as the increased deliveries to Ohio Fuel are maintained Panhandle shall not reduce deliveries to Michigan Consolidated at Detroit below 125 million cubic feet per day. Paragraphs (b) and (c) of paragraph (6) of said emergency service rules shall be inapplicable to such increased deliveries to Ohio Fuel as herein provided and, during the period of such increased deliveries to Ohio Fuel, shall be inapplicable to Michigan Consolidated in relation to any quantities of gas it may receive up to 125 million cubic feet per day at Detroit when step three of said rules is in effect. All changes and modifications in the emergency rules as herein provided are upon condition that Ohio Fuel and other operating companies of the Columbia System and other utility customers, during the period of any increased deliveries to Ohio Fuel Gas by reason of this order, do not deliver any gas for firm or interruptible industrial use in excess of ten percent of normal requirements. *It is further provided,* That the additional quantity of gas delivered to Ohio Fuel pursuant to this order shall be considered as being made available from Texas Eastern allotment to Panhandle customers and be subject to provisions of Panhandle's temporary emergency surcharge for natural gas made available by displacement.

By direction of the Commission.

FEBRUARY 2, 1948.

D. H. Frazier of Battle Creek Gas Company advises that said Company is willing to increase its production of propane gas and manufactured gas and reduce its take of natural gas from Panhandle Eastern by 500 Mcf per day for three days beginning February 3, 1948, at eight a. m. on condition that Panhandle Eastern will increase its natural gas deliveries to National Utilities Company of Michigan at Monroe, Michigan, by the same amount for the same period. This is to advise that Panhandle Eastern is authorized to make such transfer of delivery of 500 Mcf per day from Battle Creek to Monroe for the period stated above. Subparagraphs (b) and (c) of paragraph (6) of Panhandle's Emergency Service Rules and Regulations shall be inapplicable to such deliveries to Monroe.

By direction of the Commission.

FEBRUARY 2, 1948.

Kentucky Natural Gas Corporation and Columbia Gas and Electric Corporation report continued critical shortage of natural gas on their systems and request continuation of the additional deliveries from Panhandle Eastern specified in the Commission's telegraphic orders of January 27 and 23, 1948, to avert breakdown of residential service on their respective systems. Upon investigation, the Commission finds that the situation is critical as claimed and orders Panhandle Eastern to continue delivery to Kentucky Natural in the amounts and under the terms and conditions specified in its telegraphic order of January 27, 1948, and to continue deliveries to Ohio Fuel in the amounts and under the terms and conditions specified in its telegraphic order of January 29, 1948, such deliveries to continue through February 6, 1948. *Provided, however,* That Panhandle is authorized from time to time to reduce such additional deliveries to such amounts as in its judgment may be necessary to prevent it being forced into step four, and further provided that the total of such additional de-

liveries shall not exceed the volumes of gas allotted to Panhandle from the Texas Eastern Pipe Lines.

By direction of the Commission.

FEBRUARY 4, 1948.

Due to your advice that you are unwilling to comply with the Commission's telegram of February 2, 1948, authorizing the transfer of gas from Battle Creek Gas Company to National Utilities Company of Michigan at Monroe, you are hereby ordered to make the transfer and delivery as authorized in said order and the second sentence of such order is modified to read as follows: Panhandle Eastern is ordered to make such transfer of delivery of 500 Mcf per day from Battle Creek to Monroe for the period stated above.

By direction of the Commission.

FEBRUARY 6, 1948.

Battle Creek Gas Company has requested extension in modified form of the Commission order of February 4, 1948, directing Panhandle Eastern to transfer gas from Battle Creek Gas Company to National Utilities Company of Michigan at Monroe. Panhandle Eastern is hereby ordered to make delivery of 500 Mcf per day or such lesser amounts up to 500 Mcf per day as Battle Creek may advise Panhandle is available for transfer to Monroe with corresponding reduction in delivery by Panhandle at Battle Creek. This order to be effective at any time when step three of Panhandle Eastern's Emergency Service Rules and Regulations are in effect and for the period ending March 31, 1948. And providing Panhandle can effect such transfer without adversely affecting service to its other customers.

FEBRUARY 6, 1948.

Columbia Gas and Electric Corporation requests continuation of the additional deliveries from Panhandle Eastern specified in the Commission's telegraphic orders of January 23 and 23, 1948 and February 2, 1948, due to the critical shortage which still continues on the Columbia System. The Commission finds on the basis of reliable data submitted that the critical shortage on the Columbia System which necessitated increased deliveries to Ohio Fuel Gas Company by Panhandle as provided in the Commission's telegraphic orders of January 23 and 23, 1948, and February 2, 1948, still continues; that continuing increased deliveries by Panhandle to Ohio Fuel as hereinafter ordered are required in the public interest to protect essential gas service for residential consumers in Ohio. Panhandle Eastern is hereby ordered to continue delivery to Ohio Fuel Gas Company in the amounts and under the terms and conditions specified in the Commission's telegraphic orders of January 23 and 23, 1948, and February 2, 1948, through February 13, 1948.

By direction of the Commission.

FEBRUARY 10, 1948.

Kentucky Natural Gas Corporation and Indiana Gas and Water Company, Inc. request that up to 1,500 Mcf of gas per day now being delivered to Indiana at Crawfordsville and Muncie be delivered to Kentucky at the Danville connection for redelivery to Indiana's Horseshoe Loop to avert gas shortage in that area. It is understood that Indiana will produce equivalent volumes of liquefied petroleum gas in its plants connected to the Crawfordsville and Muncie delivery points. You are therefore ordered to cut back deliveries to Indiana at Crawfordsville and Muncie in such amount at each point as Indiana may specify up to a total of 1,500 Mcf per day and deliver corresponding volumes to Kentucky at Danville. This order to be effective immediately and for period ending March 31, 1948, and providing Panhandle can effect such transfer without

adversely affecting service to its other customers.

By direction of the Commission.

FEBRUARY 11, 1948.

Record in current hearings in Docket No. G-880 in the matter of Texas Eastern Transmission Corporation discloses extremely critical shortage of gas supply in Buffalo, New York, and other areas served by United Natural Gas Company and its affiliates, and in the area in Ohio, Pennsylvania, New York and West Virginia served by companies of Columbia Gas and Electric System. This shortage has seriously impaired service to residential consumers. By letter of February 11, 1948, Kentucky Natural Gas Corporation, because of shortages of natural gas to supply domestic requirements, applied to the Commission for an emergency allocation of natural gas to be made available until Tennessee Gas Transmission Company completes certain construction now under way to make additional natural gas available to Kentucky Natural. Under its order of October 10, 1947, in Docket No. G-880 the Commission assigned to the Panhandle Eastern Pipe Line Company system nineteen million cubic feet of gas per day, ten and a half million cubic feet of which is being delivered to Kentucky Natural Gas Corporation. Panhandle Eastern Pipe Line Company has informed the Commission that it has in effect Step 2 of its emergency service rules, under which full deliveries are being made for firm service consumers, including firm industrial consumers. The Commission finds (1) that it is necessary in the public interest to alleviate the critical residential gas shortage conditions in the United Natural system by increasing Texas Eastern deliveries to United Natural; (2) that such increased deliveries by Texas Eastern to United Natural can be effected by a corresponding decrease in Texas Eastern deliveries to Kentucky Natural provided there is an equal and coincident increase in Panhandle's direct deliveries to Kentucky Natural; (3) that the increased deliveries requested by Kentucky Natural are necessary to maintain service to residential consumers; and (4) that emergency increased delivery of fifteen million cubic feet per day by Panhandle to Ohio Fuel heretofore ordered by the Commission on February 6, 1948, should be continued beyond February 13, 1948. The Commission orders that, for a period of ten consecutive days commencing as early as practicable on February 12, 1948, and ending February 22, 1948, its order of November 25, 1947, in Docket Nos. G-200 and G-207 is further modified as follows: (1) Panhandle Eastern Pipe Line Company shall increase direct firm deliveries of natural gas to Kentucky Natural Gas Corporation by ten and a half million cubic feet per day to replace the ten and a half million cubic feet per day being delivered by Texas Eastern to Kentucky Natural for the account of Panhandle Eastern; (2) Panhandle Eastern shall deliver to Kentucky Natural an additional two and one half million cubic feet per day. During the period Kentucky Natural is receiving such additional delivery of two and a half million cubic feet per day or any portion thereof from Panhandle, Kentucky Natural and its utility customers shall not deliver any gas for industrial use in excess of ten percent of normal requirements; (3) Panhandle Eastern shall continue through February 22, 1948, delivery to Ohio Fuel in the amounts and under terms and conditions specified in the Commission's telegraphic orders of January 28 and 29, and February 2, 1948, provided that only eight and a half million cubic feet per day shall be considered as being made available from Texas Eastern; (4) As long as the increased deliveries to Ohio Fuel, Kentucky Natural and United Natural provided for in this order are maintained in whole or in part, Panhandle shall not reduce deliveries to Michigan Consoli-

dated Gas Company at Detroit below one hundred and twenty five million cubic feet per day; (5) Panhandle is authorized from time to time to reduce such additional deliveries of fifteen million cubic feet per day to Ohio Fuel and two and a half million cubic feet per day to Kentucky Natural to such amounts as in its judgment may be necessary to prevent it being forced into Step Four. The Commission further orders that for a period of ten consecutive days commencing as early as practicable on February 12, 1948, and ending February 22, 1948, its order of October 10, 1947, in Docket No. G-880 is further modified as follows: (A) After Panhandle Eastern has increased its deliveries to Kentucky Natural at the rate of ten and a half million cubic feet per day as hereinbefore provided, it shall notify Texas Eastern, and Texas Eastern shall promptly reduce its deliveries of natural gas for the account of Panhandle Eastern by ten and a half million cubic feet per day by discontinuing present deliveries to Kentucky Natural; (B) Upon discontinuance of such deliveries to Kentucky Natural, Texas Eastern shall increase deliveries of gas to United Natural Gas Company by ten and a half million cubic feet per day over and above amounts provided for in Commission's Orders of October 10, 1947, and January 28, 1948. It is further ordered that if, notwithstanding the termination of such increased deliveries by Panhandle to Ohio Fuel of fifteen million cubic feet per day and two and a half million cubic feet per day to Kentucky Natural Panhandle may in its judgment still be forced into Step Four, then Panhandle shall forthwith so notify Texas Eastern, and upon such notification from Panhandle, Texas Eastern shall terminate the increased delivery of ten and a half million cubic feet per day to United Natural and resume delivery of the same amount to Kentucky Natural, whereupon Panhandle shall reduce its deliveries to Kentucky Natural by the said ten and a half million cubic feet per day until such condition is relieved.

By direction of the Commission.

FEBRUARY 13, 1948.

Reurteil February 12, 1948, and confirming telephone conversation of 9:30 a. m. (e. s. t.) February 13 between Messrs. Hager, Coffman and O'Connor. Commission's telegraphic order of February 11, 1948 is to be construed as follows: First, Panhandle shall increase direct firm deliveries to Kentucky Natural to 18 million cubic feet per day and shall maintain such deliveries even though Step 3 is in effect; and second, if after thus increasing deliveries to Kentucky Natural, Panhandle is unable to deliver 15 million cubic feet of emergency gas to Ohio Fuel and 2½ million cubic feet of emergency gas to Kentucky Natural without being forced into Step 4, then Panhandle shall deliver ¼th of such emergency gas as is available to Kentucky Natural and ¼ths to Ohio Fuel.

By direction of the Commission.

FEBRUARY 14, 1948.

Re telephone conversation between Messrs. Morton and O'Connor at 12:30 p. m. (e. s. t.) February 14, 1948 concerning resumption of industrial gas deliveries by Ohio Fuel Gas Company at 25 percent of normal. Commission has confirmation of such industrial deliveries in telegram from Stuart Crocker of Columbia Gas and Electric Corporation. Delivery of any emergency gas by Panhandle to Ohio Fuel at any time when Columbia System is delivering more than 10 percent of normal requirements to industrial consumers violates Commission orders providing for emergency deliveries to Ohio Fuel and should be discontinued.

By direction of the Commission.

FEBRUARY 20, 1948.

Upon the basis of facts submitted by United Natural Gas Company showing that

there is a continuing shortage of natural gas in the Buffalo, western New York and northern Pennsylvania areas, and confirmed by the Public Service Commission of New York, the Commission finds it necessary and in the public interest to protect essential service to residential consumers that the emergency delivery of 10,500,000 cubic feet of gas to United Natural and its affiliates as provided in the Commission's telegraphic order of February 11, 1948, be continued through March 8, 1948. Wherefore, the Commission orders that its telegraphic order of February 11, 1948, in so far as it relates to the emergency delivery of 10,500,000 cubic feet of gas to United Natural Gas Company by Texas Eastern Transmission Corporation be and the same is hereby extended and continued in full force and effect without change or modification for the period ending at 8:00 a. m. on March 9, 1948.

By order of the Commission.

[Docket No G-1003]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

FEBRUARY 25, 1948.

Notice is hereby given that on February 16, 1948, an application was filed with the Federal Power Commission by Texas Eastern Transmission Corporation (Applicant) a Delaware corporation with its principal place of business at Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to install 114,000 horsepower in excess of that authorized by the Federal Power Commission in Docket No. G-880 for the compressor stations authorized therein, and authorizing the making of such changes as may be necessary in the authorized compressor stations so as to increase the designed sales capacity of Applicant's natural gas transmission system from 433,000 Mcf per day to 508,000 Mcf per day.

Applicant states that on March 26, 1947, it entered into an agreement with The East Ohio Gas Company, The Peoples Natural Gas Company and New York State Natural Gas Corporation providing for the sale of gas to said companies, and also providing that the said three companies should have options to purchase the additional quantities of gas in the total amount of 75,000 Mcf per day. On February 13, 1948, Applicant and the said three companies entered into a supplemental agreement under the terms of which the said three companies have agreed to take and Applicant has agreed to deliver the additional 75,000 Mcf per day, with deliveries up to such amount to begin as soon as Applicant can install the required additional facilities. Applicant proposes to use the increase in capacity from 433,000 Mcf per day to 508,000 Mcf per day for the sale of natural gas to said three companies in accordance with the options set out in the agreement of March 26, 1947, as amended by the agreement of February 13, 1948.

It is stated that the requested increase in the designed capacity of Applicant's

pipe line system will enable it to supplement and augment the present supply of natural gas in the Appalachian area and will assist in alleviating the acute shortage and emergency situation which now exists.

Applicant states that the proposed additional facilities will be constructed under the existing contract between Applicant and Brown & Root, Inc., dated June 25, 1947, a copy of which was offered and received in evidence as Exhibit 37 in the hearing in Docket No. G-880.

Applicant estimates that the total over-all capital cost of Applicant's pipe line system with a sales capacity of 503,000 Mcf per day, including organizational expense, financing costs and working capital, will be \$181,390,900, which is \$8,983,900 more than the over-all capital cost estimated in Docket No. G-880 for the pipe line system with a sales capacity of 433,000 Mcf per day. Applicant proposes to finance construction of the proposed additional facilities from funds on hand or to be received from the sale of gas and from bank loan commitments established by Applicant in the hearing in Docket No. G-880.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure (18 CFR 1.37) and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Texas Eastern Transmission Corporation is on file with the Commission and open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of Rule 8 or 10, whichever is applicable, of the rules of practice and procedure (as amended on June 16, 1947) (18 CFR 1.8 or 1.10).

MONONGAHELA RAILWAY Co.

DIRECTIVE TO FURNISH CARS FOR RAILROAD COAL SUPPLY

By letter dated February 25, 1948, the Lehigh Valley Railroad Company certified that it had on that date in storage and in cars a total supply of 10.5 days of fuel coal, and that it is immediately essential that this company increase its coal supply from certain enumerated mines.

The certified statements have been verified and found to be correct.

Therefore, pursuant to the authority vested in me by paragraph (b) of Service Order No. 790, The Monongahela Railway Company is directed:

(1) To furnish weekly to the mines listed below cars for the loading of Lehigh Valley Railroad fuel coal in the number specified from its total available supply of cars suitable for the transportation of coal: Maiden 15 cars; Rosedale No. 4, 32 cars; Mon 32 cars; Jamison No. 11, 22 cars; Christopher No. 3 or National 95 cars.

(2) That such cars furnished in excess of the mines' distributive share for the day will not be counted against said mines.

(3) That it shall not accept billing of cars furnished for loading under the provisions of this directive unless billed for the Lehigh Valley Railroad fuel coal supply.

(4) To furnish this Bureau, as soon as may be practicable after the end of each week, information showing the total number of cars furnished to said mines for the preceding week under the

NEW YORK CENTRAL RAILROAD CO.

DIRECTIVE TO FURNISH CARS FOR RAILROAD COAL SUPPLY

On February 24, 1948, the Lehigh Valley Railroad Company certified that it had on that date in storage and in cars a total supply of 10.5 days of fuel coal, and that it is immediately essential that this company increase its coal supply from certain enumerated mines.

The certified statements have been verified and found to be correct.

Therefore, pursuant to the authority vested in me by paragraph (b) of Service Order No. 790, The New York Central Railroad Company is directed:

(1) To furnish weekly to the West Freedom #6 mine 12 cars for the loading of Lehigh Valley Railroad fuel coal from its total available supply of cars suitable for the transportation of coal.

(2) That such cars furnished in excess of the mines' distributive share for the day will not be counted against said mine.

(3) That it shall not accept billing of cars furnished for loading under the provisions of this directive unless billed for the Lehigh Valley Railroad fuel coal supply.

(4) To furnish this Bureau, as soon as may be practicable after the end of each week, information showing the total number of cars furnished to said mines for the preceding week under the authority of this directive and to indicate with respect to each mine how many such cars were in excess of the daily distributive share of car supply of such mine.

A copy of this special directive shall be served upon The New York Central Railroad Company and notice of this directive shall be given the public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

Issued at Washington, D. C., this 24th day of February A. D. 1948.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1727]

PUBLIC SERVICE CO. OF OKLAHOMA

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of February A. D. 1948.

Public Service Company of Oklahoma ("Public Service") a public utility of Central and South West Corporation, a registered holding company, having filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and having designated sections 6 (b) and 7 of such act and Rule U-50 promulgated thereunder as applicable to the following proposed transactions:

Public Service proposes to issue and sell, at competitive bidding pursuant to Rule U-50 \$10,000,000 principal amount of its First Mortgage Bonds, Series B, --%, to be dated February 1, 1948 and to mature February 1, 1978. Said bonds

are to be issued under and secured by the Indenture of Mortgage, dated July 1, 1945, from Public Service to The First National Bank and Trust Company of Tulsa, as Trustee, and a proposed Supplemental Indenture to be dated February 1, 1948; and

Public Service having stated that the proceeds from the sale of such bonds will be used to prepay \$3,075,000 principal amount of bank loan notes issued or assumed in connection with the acquisition of electric utility properties and to pay, or reimburse the company, for the cost of additions, extensions and improvements to its properties; and

The issue and sale of such bonds having been expressly authorized by the Corporation Commission of the State of Oklahoma, the State commission of the State in which Public Service is organized and doing business; and

Public Service having requested that the ten-day publication period for inviting bids, as provided in Rule U-50, be shortened to a period of not less than six days and that the Commission's order in this matter become effective forthwith upon issuance; and

The Commission finding with respect to said application-declaration that the issue and sale of said bonds meets the requirements of section 6 (b) of the act for exemption from the provisions of sections 6 (a) and 7 and finding no basis for imposing terms and conditions except those specified in Rules U-24 and U-50 and deeming it appropriate in the public interest and in the interest of investors and consumers to grant the requests of Public Service:

It is ordered, That, pursuant to Rule U-23 and subject to the terms and conditions prescribed in Rule U-24, said application, as amended, be, and hereby is, granted and permitted to become effective forthwith.

It is further ordered, That said issue and sale of said bonds, pursuant to Rule U-50, shall not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for this purpose.

It is further ordered, That, in accordance with the request of Public Service, the ten-day period for inviting bids as provided in Rule U-50 be, and hereby is, shortened to a period of not less than six days.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.
